

Care4Kids Centers of Excellence

A Center of Excellence (COE) is a primary care medical clinic with a special interest in providing health care to children in foster care. COE providers have expertise in caring for children in the foster care system and understand the enhanced health care needs of this population. Providers are trained in providing care under a Trauma Informed Approach which creates sensitivity to the prior trauma these children have experienced.

The COE will prioritize appointments for children in Care4Kids with a commitment that the child will be scheduled for a comprehensive initial health assessment within 30 days. The COE will support and assist with managing a child's care needs, provide well child checkups, acute care exams, and specialty referrals for these children. COE providers will partner with the Care4Kids health care coordinators to ensure that information is shared amongst all involved in the child's health care, to enhance collaboration and communication and to improve outcomes.

To find a comprehensive list of Care4Kids approved medical, dental, vision, specialty care, and mental health providers, visit the [Find a Doctor directory](#) on the [CCHP website](#).
