

Asthma Care Management Program

Chorus Community Health Plans (CCHP) uses clinical guidelines to support members with asthma treatment, management tools and educational opportunities through our Asthma Care Management Program.

Our care team takes an integrated approach to care, offering self-management support and connecting members with education and resources. Our goal is to empower our members to better manage their conditions, improve health outcomes and enhance overall quality of life.

Participating in the Program

This program is free and voluntary to members ages 5-17 who have asthma. Members who fit these criteria will automatically be enrolled in our program. Benefits of this program include receiving access to asthma tools and resources, support from nurses, care staff and community services, and more.

Asthma Resources

Hayat Pharmacy

Hayat Pharmacy offers multiple asthma services and medications. Call (414) 610-7507 to schedule a delivery or home visit from Hayat.

CHAMP Program

Community Health Asthma Management Program (CHAMP) is a free program for members in the Milwaukee area. It provides education and resources to help manage your child's asthma. The goal of this program is to help children reduce missed school days, urgent care and Emergency Department visits, and hospitalizations due to asthma-related illness or complications.

To learn more about CHAMP, visit chorushealthplans.org/asthma, call (414) 345-7833 or email AsthmaHomeReferral@childrenswi.org.
