Taking care of your oral health is an important component of your overall health and well-being. In fact, many non-oral health issues can be identified through a dental examination. To that end, Chorus Community Health Plans (CCHP) is pleased to partner with Dental Professionals of Wisconsin to offer three different dental plans. **New for 2023** is our Essential plan to allow for more flexibility to purchase the plan that best suits you and your family's needs.

## Benefits

All three dental plans include coverage for two preventive screening exams per year, at no charge, for children and adults. Our new Essential plan is our lowest cost plan that includes coverage for basic and major services for children however adult coverage is solely for preventive services. If you are in need of further adult coverage, our Standard and Premier plans are great options that offer additional basic and major coverage for both children and adults. Coverage is subject to the specific plan deductible.
