

## Child Advocacy Center locations

The Child Advocacy Centers provide assessments to children who may have been harmed. The goal of the centers is to protect children from abuse and provide resources to help them heal. A CAC is a medical clinic staffed by pediatricians and other health care providers who specialize in caring for children who have suffered maltreatment, or who are in out-of-home care. Health care providers at CACs are trained to recognize signs of abuse and neglect in children, as well as provide care in a way that does not cause additional trauma to the child. The name of the CAC in Milwaukee County is the Child Protection Center.
